### Schools Will Ask for Vocational Act Funds

An application for \$14,100,000 in matching funds under the Vocational Education Act of 1963 was approved by the Board of Education during a meeting Monday evening.

The money will be available to the State Department of Education for distribution to school districts as soon as Congress passes an appropriation bill for the current year.

The money will be used to establish a vocational counseling program at each of the four city high schools, as well as for several special vocational training classes.

If the application is granted, the district will begin a data processing skills class at South High and a secretarial skills laboratory at West High. Plans also call for a class in communications and broadcasting at North High program study. Several other programs are being considered for future years, if funds become available to the district.
